

February 25, 2008

Mr. James De Angelo
ICA, Inc.
2090 West Bates Avenue
Englewood, Colorado

Mr. De Angelo:

First of all, let me thank you and your company for responding to Our need to restore our community after the March 28th . tornado.

As Chairman of The Holly Recovery Task Force, I seen first hand The destruction that occur that day. And how thousand people joined Together to help in the hour of need. It is a great feeling to know that We in America still will respond to assist each other in the time of Need.

Your company ICA, Inc., came in to help us rebuild our community. I was impressed with the caliber of professional personnel that are Employed by your company.

One person in particular that impressed me with his leadership was Juan Perez, your lead man. Juan not only was here doing what expected Of him, but, also served as your PR person in the absence of your project Manager. Juan had to be the peace maker, if you will, in many situations. And he handled the situations quite well. He should be highly commended For his leadership.

Again, Mr. De Angelo, thank you for your contribution in assisting us After the March 28th . tornado.

Sincerely,

Tony Garcia
Chairman, HRTF
